Insurance

We help prioritize the security of our customers. As far as the insurance coverage is concerned, the insurance policy covers losses and \$200 million is dedicated to it for our customers.

PayBito

Company Overview

6 Paybito Tokenization Platform

The tokenization platform enables the process of digital asset creation, where the assets represent a specific real tradeable asset over a blockchain-based system. Through the platform, owners can tokenize their high value assets or partial ownership of their assets to increase liquidity. With Paybito tokenization platform anyone can launch their own token and can have it listed on trading platforms allowing the users to buy and sell launched tokens.

7 Paybito ICO Platform

An initial coin offering (ICO) is the virtual currency industry's equivalent of an initial public offering (IPO). A company seeking to raise money to create a new decentralized application launches an ICO as a way to raise funds.

PayBito supports emerging startups/ enterprises in acquiring their target funds, by helping them launch their ICO, to be hosted on our platform.
